FYI_1: While the market generally opposes the direction of the VIX, money tends to flow from risky to stable assets with rising VIX or stable to risky assets with falling VIX.

FYI_2: Buying a diverse portfolio of forecasted options contracts at bargain prices is a winning investment strategy.

FYI_3: The 6day Chaikin Money Flow suggests an options forecast lockon for || [no-days] || OR ([1-day] |) OR (([2-days])) in a row.

FYI_4: [$\emptyset \Rightarrow$ Vetoed Puts , $\backslash \Rightarrow$ Vetoed Calls]
